I'm waiting for my second order at Shein and I'm really satisfied with the service. On my first order I did choose inexpensive items just to try my size and only one item is a bit larger than I expected. I like that they send the info when the order ships and I can track the packages. My order came before the date expected and I really liked everything. The app is easy to use.

SheIn is an awesome app! Lots of great sales, wonderful items! Communication is great, they let you know when your items are shipped and I've never had to return anything! One thing I would change is to tell more in the description of an item and measurements as in the make up bags. They're a very nice size, but measurements would be nice. Otherwise a great app and would highly recommend to everyone!
